

STATEWIDE GRANTS

P R O G R A M

January 14, 2022

Dear Friend of Nebraska History,

In January of last year, the Foundation launched its first grant cycle for the [Statewide Grants Program](#). In all, 98 applications were received requesting \$359,561 in funding for projects totaling over \$1.2 million dollars. \$15,605 was granted to 20 organizations in 18 counties in the inaugural award cycle.

The application for the second round of grants is attached and we invite you to submit a request for your organization before April 30, 2022. Please complete the PDF and email it to me or print the PDF, complete it and return it to me at the address below.

Grants should be for core educational, preservation and interpretive purposes. (Please see the application for examples of the types of grants we will accept.) We will not be accepting requests for building maintenance, repairs or improvements this year.

If you have any questions, please contact me. We look forward to awarding as many grants as possible and hope to continue to grow this program over the years.

Thank you for the work that your organization has done, and continues to do, to preserve and protect Nebraska's history. Your efforts assure that our history will be accessible to all, both now and in the future.

Sincerely,

Sue Quambusch
Special Projects/Grants Coordinator
